

About Us

We offer financial advice and consultancy to businesses and organisations looking to protect and grow their business by offering accurate and timely accounting, auditing and other professional services to international standards and at good value, through a friendly, accessible and involved team.

We provide a comprehensive range of business solutions and where expertise is not available in-house, we have partnered with carefully selected associates so as to make MGK Consulting a one-stop shop for financial advisory.

Management Information Systems Advisory and Support

We help you nurture and grow your business

A Management Information System that caters to organizational demands is a key enabler for the accomplishment of your strategic goals.

Management Information Systems Advisory & Support Service

We accompany you as you evaluate your system requirements, examine and assess suggested systems, and conduct future evaluations. We tailor our system support services to your needs. Our services includes the following:

- **Financial system acquisition consulting support including:**
 - System needs assessment
 - Systems proposals evaluation
 - Post system implementation reviews
- **Payroll software as a service in a secure environment**
- **Data protection reviews**
- **Information systems audit and vulnerability assessments**
- **Financial systems utilization reviews**
- **Odoo open source ERP implementation and support**

Why Choose Us

Excellence

We uphold professionalism, integrity and adherence to international standards.

Client Focused

We strive to understand and meet client needs efficiently while availing a friendly service.

Trust

We do what is right for the client, always. Ethical conduct is the norm at MGK Consulting.
