Auditing & Assurance Service

For many organizations, publishing audited accounts once a year is something they must do by law. At MGK we believe that the real value of the audit process goes far beyond legal requirements.

- ✓ We support our clients to produce more than a financial audit.
- ✓ We provide industry knowledge.
- ✓ We ensure compliance with local and international standards.
- ✓ We use rigorous quality control procedures to ensure that we perform to the highest standards.

Our audit approach strongly emphasizes early planning to learn the unique aspects of your business followed by execution, reporting, and follow-up phases.

This is aimed at providing an effective, cost-efficient, independent audit that is performed in a timely manner to give confidence to investors, financiers, and other stakeholders who are not involved in the day-to-day running of the business.

We use various audit tools to ensure compliance with the professional and regulatory standards.

Our audit services include:

- **STATUTORY AUDITS**
- **DUE DILIGENCE AUDITS**
- **PROJECT AUDITS**
- **FORENSIC AUDIT**
- **SPECIAL PURPOSE AUDITS**
- **AGREED UPON PROCEDURES**

We provide an independent opinion not only to fulfill statutory obligations but also to give assurance to management, shareholders, and other stakeholders.
